

Update 1/21/2021

As a qualified COVID-19 Vaccination provider, KCHS will be assisting with the county-wide vaccination process. We have been informed we will receive a **very limited** supply of COVID-19 vaccinations towards the end of January or first part of February. The state of Nebraska phase prioritization has changed for Phase 1B to include the 65+ age group and those who have underlying medical conditions. Phase 1B will start once Phase 1A has been completed.

At KCHS we are currently cross-referencing our patient lists with the information being submitted to Two Rivers Public Health Department. **We are asking specifically that if you or a qualifying family member are not a patient of KCHS, and are a resident of Kearney County, please SUBMIT YOUR INFORMATION (or assist a qualifying family member with submitting their information) through Two Rivers Waiting List sign-up:**

https://nalhd.az1.qualtrics.com/jfe/preview/SV_efcrplgGjg3KfOt?Q_CHL=preview&Q_SurveyVersionID=current (Or visit <https://www.trphd.org/>)

This will help us to have an accurate reflection of the qualifying Kearney County residents eligible for the Phase 1B Vaccination. If an online sign-up is not possible, you can call KCHS at 308-832-3400 Option 6 to be placed on a waiting list. However at this time, **we are not scheduling appointments**. We will be contacting qualifying individuals personally once we have more guidance. We truly appreciate your patience as we continue to gather information and eligible resident data. We will be following up with more information as it becomes available!
