

THE IMPORTANCE OF BIPOC MENTAL HEALTH AWARENESS MONTH

ACCESS TO CARE IS NOT EQUAL.

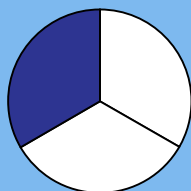

Cultural stigma, lack of representation, and limited access to culturally competent providers can make it harder for individuals to seek and receive support.

REPRESENTATION MATTERS IN HEALING.

Connecting with providers and support systems that understand cultural backgrounds can improve trust, communication, and outcomes.

Feeling seen and heard is a critical part of mental health care.

MENTAL HEALTH IS SHAPED BY LIVED EXPERIENCE.

Racism, discrimination, and generational trauma can contribute to stress, anxiety, and depression in ways that are often overlooked or misunderstood.

When care is **accessible, inclusive, and respectful** of cultural differences, individuals are more likely to seek help and stay connected to support.
