CURRENT HOSPITAL VISITATION GUIDELINES

Last updated: 3/16/2020

Effective immediately, to ensure the safety of hospital patients during the COVID-19 pandemic, KCHS has made the decision to limit visitors to two (2) designated visitors per hospital patient. This must be the same two (2) visitors during the entirety of the hospital patient's stay.

Visitors **MUST** report to the nurses' station for respiratory screening before entering a patient's room. At this time, the screening will be conducted through a series of questions and possibly temperature monitoring.

Each situation will be handled on a case-by-case basis.

Visitors should be 18 years of age or older. At this time, we have not restricted visiting hours, but that may change.

Currently, all secondary entrances are locked. Please enter the facility through the Clinic entrance, Main Hospital Admissions entrance, or the Emergency Room entrance.

Thank you for your understanding as we try to limit exposure as much as we can to hospital patients. If you have any questions, please see a member of the nursing staff.
