

KEARNEY COUNTY
HEALTH SERVICES

As business owners, this is helpful information and keeps everyone on the same page.

1. If an employee has been exposed, they need to self-quarantine for 14 days after exposure.
2. If an employee has not been exposed and has not traveled, there is no reason for testing.
3. If an employee is sick and chooses to self-quarantine, they should not seek medical attention specifically to receive a doctor's note.
4. If an employee is sick and feels ill enough that they need to be seen by a provider, please call in advance to schedule a time to be seen. If it can't wait, please report to the Emergency Room. Calling ahead to the emergency room is great too!
