HEALTH SERVICES

## CURRENT HOSPITAL VISITATION GUIDELINES

*Last updated: 12/16/2020*

Due to the state of the current COVID-19 pandemic situation, KCHS has made the decision to **allow one visitor** into the facility (Clinic, Emergency Room, and Hospital areas). Clinic visitors will be allowed with patients during Clinic hours. Hospital visitors will typically be limited to 7:30am - 5:00pm Monday - Friday, unless other arrangements are made with Hospital nursing staff. Emergency Room visitors will be allowed with a patient for emergent situations.

Any visitors who are allowed into the facility **MUST** be screened prior to admission into the building. At this time, the screening will be conducted through a series of questions and temperature monitoring. KCHS reserves the right to not allow visitors based on the results of the screening.

All visitors into the facility **MUST** wear a mask or face covering at all times. Currently, all entrances are locked. Please report to the Clinic B (Well Clinic) entrance, Main Hospital Admissions entrance, or the Emergency Room entrance.

Thank you for your understanding as we try to limit exposure as much as we can to hospital and clinic patients. If you have any questions, please see a member of the nursing staff or contact the CEO.
